with Selective Implosion Technology

Efficient:

Fast acting

(Reduced dwell time required)

Removes most types of floor finishes

Easy to neutralize

Protects the surface

Easy to apply and use

Mild Odor

Environmentally Preferable[®]:

Certified by EcoLogo

Economic:

Low dilution 16 - 32 oz p/gallon

RUBY

DESCRIPTION

'Ruby' is a premium floor care product that provides users with a safer, faster, and more efficient process for stripping floor finishes of all kinds such as anti-oxidants, asphalt coal tar, rust and discoloration caused by rubber backed walk off mats.

- Reduced Slippery
- Contains no ammonia or solvents
- Can be used on all hard surfaces
- Does not rely on excessive alkali/caustic builders
- Mild Odor

Ultra Chem Labs Stripper uses the unique Selective Implosion Technology that implodes polymer locks of highly styrenated floor finishes at a molecular level resulting in a less mechanical action requirement (scrubbing).

ULTRA TECHNOLOGY USED:

1. SELECTIVE IMPLOSION TECHNOLOGY
