

Nothing But Green Living Enterprises, LLC

100 Technology Way, Mount Laurel, New Jersey 08054

Ron Timmons, CEO Nat Anderson, COO

Nothing But Green Living Enterprises is an Environmentally Friendly “Green” Products and Service company. Our products are safe for the environment, people, and animals. The products include “Green” Floor finishes and cleaning products.

One highlight of our business is the School Program, which features one of our key floor finishes “Pearl” and three cleaning products: Cleaner and Conditioner, Super Heavy Duty Degreaser, and Ultra - Q128. Schools were targeted for this program as it is a known entity that schools strip and wax floors on an annual basis. However, Nothing But Green Living Enterprises has taken this concept beyond schools. Wherever there is a floor..... the program can be implemented.

The program major focus is safety and chemical source reduction. Some schools and businesses may use as many as 22 different cleaning products. Most of these products are not necessary and are not safe for people or the environment. Our program features **three** cleaning products, which are 100% Green certified. Product highlights are as follows:

- Cleaner and Conditioner is an all purpose cleaner and Floor restorer designed with Electrolytic Cleaning Technology. This Eco-Friendly product cleans all types of floors and surfaces to include glass, mirrors, stainless steel, and metals. Cleaner and conditioner is a Light duty degreaser.
- Super Heavy Duty Degreaser is a high performance Degreaser and Cleaner, which is fast acting, removes most types of greases, is non-harmful, and easy to apply. The secret behind this product is 3D Electrolytic Cleaning and Conditioning technology combined with a 3 dimensional surfactant that electrolytically removes soil imbedded deep in the substratum.
- Ultra-Q128 is a disinfectant cleaner and deodorizer, which features Electrolytic cleaning Technology and a Quaternary formulation. The product is an effective cleaner, detergent, Deodorizer, Mildew stat, Fungicide, and Virucide. Bactericidal activity of this product meets all requirements for hospital use.

Pearl the featured floor finish is a proprietary product which is Styrene Free, has Low VOC's, Wet Look, Slip Resistance, and Fantastic Durability. This finish used in conjunction with Cleaner & Conditioner at .5 to 1 ounce per gallon of water reduces floor stripping cycles.

A reduction in floor stripping cycles translate to economical savings for the customer. Customers who implement the School Program normally experience an Annual Chemical reduction of 60 - 70%. In addition, a decrease in labor, time, and effort by 45 - 55%. There are schools that have implemented the “School Program” and they have not stripped floors in 12 years.

The service side of the business focuses on **Product distribution** as well as **floor restoration, maintenance, and cleaning of floors**. We distribute “Green” Floor Finishes, Sealers, and cleaners that are safe for you and the environment.

Moreover, we are able to offer our customers the latest technology in equipment and supplies. Our products coupled with the right equipment technology enhances the cleaning/restoration process and delivers a remarkable floor.

Some of our Floor services include stone, VCT, Wood, carpet, concrete, granite, and marble just to name a few. We also provide superior installation of various types of floors. If there is a floor, we have the product or service to keep you marveling at the appearance of your investment for years to come.

Because Nothing But Green Living Enterprises utilizes the latest techniques and equipment, we are in a unique position to offer suggestions about cleaning services that will enhance the appearance and safety of your building or home. Nothing But Green Living Enterprises takes special pride in a job well done. “We Don’t Cut Corners...We Clean Them”
